KUHIO GIVES HIS VIEWS

On Appropriations For Hawaii To Be Sought.

Delegate Kuhio replied to the Acting Governor's request for suggestions regarding Federal appropriations for the Territory with the following letter:

Honolulu, Hawaii, Aug. 3, 1904.
Hon. A. L. C. Atkinson, Acting Governor, Territory of Hawaii, Honolulu.
Sir:—I beg leave to respond to your communication of July 28th.

The Territory of Hawaii is so recent and distant an addition to the United States that our people have not yet come to a full realization of the limitations constitutionally imposed on Congress in its financial dealings with States and Territories.

We, in the past, have been accustomed to sending diplomatic and special representatives to Washington, until the significance of a regular Delegate to Congress has not been fully comprehended.

These two points must be deeply impressed on our local intelligence before we can act wisely.

There are many Congressional Districts where no special appropriation has ever reached them directly. These districts have no navigable rivers, no towns large enough to warrant the erection of a public building, hence Congress can do nothing for them locally, and their benefits are those that inure to the whole community.

The Territory of Hawaii being a group of distant isolated islands cannot share in many of the benefits belonging to the Mainland, and must be considered by Congress as they exist, and not on theories not applicable to their natural, climatic and social conditions.

The Territory has rugged exposed coasts, its two or three harbors need large expenditures to meet the demands upon them. Honolulu harbor cannot be judged on a local basis for it is a port of call for Trans-Pacific Commerce, thus accommodating an immense through traffic.

In order to secure appropriations we must concentrate our efforts on one or two objects, though we may mention other desirable ones.

I wish particularly to warn our citizens to avoid unduly pressing projects relating to National defense which are in charge of the Army and Navy. These Departments will attend to those matters. The Delegate should not so conduct his efforts that his influence for appropriations is so exhausted on National projects that he will not be heard on local appropriations.

I believe that during the next session of Congress the efforts of the Delegate should be mainly confined to the following objects:

1st: The return of the money expended by the Territory of Hawaii on objects solely the duty of the Federal Government, to-wit: the dredging of Honolulu Harbor and maintaining light-houses.

2nd: The deepening of and enlarging Honolulu Harbor and its entrance channel.

This is an imperative requirement that the enormous Trans-Pacific commerce now existing and growing may be attracted to our port.

3rd: To provide a breakwater for Hilo, Hawaii, harbor, that the great island of the group may have an opportunity to develop.

4th: To secure aid for the scientific study of leprosy and its possible cure.

5th: To find some solution of our labor difficulties.

As desirable as Federal buildings at Honolulu and Hilo may be, they should be urged judiciously, only so as not to interfere with the more imperative objects mentioned above.

I think I have covered all the ground necessary at this time.

I have the honor, sir, to be, Your obedient servant,

(Signed) J. KALANIALAOLE, Delegate.

May's old Kona coffee is roasted fresh every day and ground as you need it. It is absolutely pure and there is none better on earth. Twenty-five cents the pound.

MAKE BEAUTY SPOTS OF NEGLECTED LOTS

Acting Governor A. L. C. Atkinson is also acting as City Improvement Association at present in a way that may shortly bring about a great change for the better in the appearances of some conspicuous localities in Honolulu. Whether the scheme he has taken in hand succeeds or not to the full extent desired, the attempt in itself points the way for action on the part of public-spirited citizens toward improving the looks of different parts of the city and suburbs.

The Acting Governor is personally addressing the Trustees of the B. P. Bishop Estate to offer them co-operation of the Government in transforming some of their centrally located areas of unimproved land into green lawns. There are three plots in view for the process. One is the large rectangular space opposite the Alexander Young Building, which is the choice of Honolulu for a Federal building site if it can be obtained on favorable terms. Lately the Trustees have had this ground cleared of rubbish, graded and curbed, besides guarding it with a low fence along its three street borders. Although less unsightly than before these fixings, the place is still barren and forbidding in aspect. Mr. Atkinson proposes to give the services of a few prison trustees for

TAXING THE CABLE ENDS

Interesting Argument In Tax Appeal Case.

International law and the three-mile limit problem that has vexed august arbitration tribunals were aired in the appeal of the Commercial Pacific Cable Co. from an assessment of \$42,800 on its local plant before the Tax Appeal Court yesterday. The assessment includes the San Francisco and Manila cable ends for three miles to sea. Theo. F. Lansing and J. R. Galt constituted the court.

Sidney M. Ballou appeared as counsel for the appellant.

He argued that the Territory had no jurisdiction beyond low water mark, quoting an English decision holding that the "country" did not exercise authority beyond its land confines. The three-mile sea border was an international subject, Mr. Ballou argued, and then simply as a matter of sovereignty and not of ownership. Further he stated that dozens of cables landed on the United States mainland, yet it could not be shown where one of them was taxed under the sea. Counsel argued that as the question was now for the first time raised, the burden of proof was on the Government to show that the Territory had jurisdiction three miles to sea.

Arthur A. Wilder, replying for the assessor, contended that the question was one of common sense and not to be decided upon technicalities. Perhaps the thought of taxing cables had not occurred elsewhere. In some cases probably the tax authority taxed the property of the company in its shares of capital stock. Anyway, each state had its own taxation laws and one could not be a rule for another nor for Hawaii.

It was absurd, Mr. Wilder argued, to say that the Territory had no jurisdiction below low water mark. In that event, a house boat or a yacht lying in the stream was not taxable. What about valuable property in and upon wharves beyond low tide mark? If Mr. Ballou was correct in his law, the speaker said he might put \$1000 in his pocket on January 1 and defy assessment of it by going out in a boat.

Mr. Wilder mentioned the case of the Chilean vessel lying off Pearl harbor a few months ago when a shooting occurred on board. It was the Territory's police that took jurisdiction of the matter and arrested the shooter. If the Territory did not have jurisdiction for three miles from shore, the case would have been one of admiralty for the United States authorities to handle. Moreover, counsel pointed out, the Supreme Court under the monarchy decided the three-mile jurisdiction under a law re-enacted by implication in the Organic Act. This was in a case where the cargo of sugar in a vessel at Hilo was claimed exempt because it has cleared at the custom house before the 1st day of July, at that time the day as of which assessments were made. The court decided that the clearance did not exempt the cargo, as the vessel was still inside of the three-mile limit.

The case was submitted.

ATTACKS OF COLIC, cholera morbus, pains in the stomach, dysentery and diarrhoea come on suddenly and so often prove fatal before a physician can be summoned, that a reliable remedy should always be kept at hand. Chamberlain's Colic, Cholera and Diarrhoea Remedy has no equal as a cure for these ailments. It never fails to give prompt relief even in the most severe cases. It is pleasant to take and every household should have a bottle at hand. Get it today. It may save a life. For sale by all Dealers. Benson, Smith & Co., Ltd., Agents for Hawaii.

Historical Honolulu

OR A CENTURY OF

HAWAIIAN EVOLUTION

This valuable record of the most important events in the History of Honolulu for the past hundred years was compiled and published at great expense in 1899.

Its historical and descriptive articles are by the very best recognized authorities on Island matters and are handed from absolutely impartial standpoints.

It is finely illustrated and contains portraits and biographical sketches of the principal business and professional men of the Islands.

This is a publication that no student of Hawaiian History can afford to be without. A limited number of copies still for sale by The Hawaiian Gazette Co., Ltd.
